

SERVICE TRACKING SYSTEMS AND FEDERAL APD TEAM UP

PRESS RELEASE - FOR IMMEDIATE RELEASE

University Park, IL, January 27, 2009 - Federal APD, Inc. (FAPD) a Federal Signal Corporation, and Service Tracking Systems, Inc. (STS), the parent company of Computerized Valet Parking Systems (CVPS, Inc.), have entered into a strategic alliance to market and sell each other's products.

Federal APD and its distributors will now be able to offer the industry's leading valet parking technology solutions, including Computerized Valet Parking System's (CVPS) premier patent protected vehicle imaging technology solution. In turn, STS will incorporate FAPD's comprehensive & renowned line of parking control systems.

"We are very excited about this relationship" said Kai Schuette, Founder and CEO of Service Tracking Systems. "It is what I call a 'win-win-win.' While STS and Federal APD gain a competitive market advantage by being able to offer a more complete line of products, our clients win by having easy access to integrated turnkey solutions supported by a single point of contact. "

Cutting edge technology upgrades are also in the works. Both Federal APD and CVPS are presently in the process of bringing a host of new products and technologies to market.

"The timing could not be any better, as we are able to leverage our talented development resources to create powerful solutions to help our clients build revenue and decrease costs", said Bob Kane, Director of Market Development for Federal Signal Corporation. "Weaving CVPS's leading valet technologies into our access control solutions will enable us to integrate a broad range of innovative products into custom systems for the specialized valet/self-park arena."

About Federal Signal Corporation
